PROFESSIONAL SUMMARY

Senior Mobile Engineer with 5+ years of hands-on Flutter and Dart experience, specializing in application architecture, state management (Riverpod, BLoC, Provider), asynchronous programming, and app lifecycle handling. Shipped multiple production apps to the App Store and Google Play (4.5+ ratings), debugged complex performance and memory issues, and built a Codemagic CI/CD pipeline that cut release time by 25%. Led a team of 6 developers, set code-review standards, and publish four open-source Dart/Flutter packages on pub.dev (verified publisher, 9,600+ combined downloads). Working knowledge of Kotlin and Java for Android-native integration.

TECHNICAL SKILLS

Cross-platform: Flutter, Dart (5 years), Riverpod, BLoC, Provider, Clean Architecture, modular app structure

Android native: Kotlin and Java — platform channels, native plugins (working knowledge)

State & lifecycle: Async programming (Futures, Streams, isolates), app lifecycle management, offline-first patterns

Testing & quality: Unit, widget and integration testing; debugging; code review; reproducing and isolating bugs

Performance: Memory profiling, Flutter DevTools, startup time and API latency optimization, rendering/jank reduction

Backend & data: REST APIs, JSON, Firebase (Firestore, Auth), PostgreSQL, Supabase; NestJS (working familiarity)

Integrations: Agora SDK (video calling), Google Maps SDK, payment gateways, push notifications

DevOps & tools: CI/CD (Codemagic, GitHub Actions), Git, GitHub, GitLab

UI & process: Material Design, Cupertino, pixel-perfect implementation; Agile/Scrum, mentoring, technical leadership

WORK EXPERIENCE

Parijat Infotech Pvt. Ltd. — Kathmandu, Nepal

Dec 2025 – Present

Senior Flutter Developer

- Lead the Flutter work on a Japanese-market project, collaborating with multiple cross-functional teams.
- Fix bugs and implement new features, including Agora video calling.
- Write project documentation and technical analysis.
- Up-T Talk** (1K+ Android downloads): fan app to browse talent events, buy tickets, join video, audio or chat talks, request events, follow talent, and receive photos, autographs, goods and letters. [Google Play](#) · [App Store](#)
- Up-T Talent** (100+ Android downloads): app for entertainers to create ticketed events, talk with fans, accept event requests, and send letters, photos, autographs and merchandise. [Google Play](#) · [App Store](#)

Kaha Inc. — Kathmandu, Nepal

Sep 2024 – Dec 2025

Senior Flutter Developer

Jan 2025 – Dec 2025

- Led mobile development of scalable, performant cross-platform apps using Riverpod and Clean Architecture.
- Mentored developers and enforced code-quality standards through reviews and architectural guidelines.
- Drove product enhancements from feature design through release.
- Kaha** (5K+ Android downloads): location and community platform with KahaTAG digital addresses, navigation, heritage discovery, listings, marketplace, and in-app chat and booking. [Google Play](#) · [App Store](#)

Mid Flutter Developer

Sep 2024 – Dec 2024

- Built core modules for flagship apps in collaboration with UI/UX and backend teams.
- Optimized API integration, reducing app load time by ~18%.

IET Technology Nepal — Kathmandu, Nepal

Project-based

Mobile Application Developer (Freelance)

- Delivered end-to-end mobile solutions for fintech, retail, and education clients.
- Integrated payment gateways, push notifications, and the Google Maps SDK for real-time services.

Senior Flutter Developer

Jun 2023 – Jun 2024

- Led a team of 6 developers delivering cross-platform apps with smooth release cycles.
- Built the CI/CD pipeline in Codemagic, cutting release time by 25%.
- Introduced modular app structures that improved maintainability and scalability.
- **Products:** esPay (cooperative mobile banking, shipped as branded builds) and Easy School App (white-label school app).

Junior Flutter Developer

Mar 2021 – Jun 2023

- Built and maintained apps with REST and Firebase backends.
- Developed UI components following Material and Cupertino guidelines.
- Gained deep hands-on experience in debugging, testing, and code reviews.

Elite Infotech — Kathmandu, Nepal (Hybrid)

Nov 2021 – Apr 2022

Freelance Flutter Developer

- Delivered custom apps for local businesses and startups across the full lifecycle, from requirements to deployment.
- Integrated third-party APIs and ensured consistent behavior across devices.

OPEN-SOURCE PROJECTS

- **contacts_service_plus** (Flutter plugin): retrieve and manage device contacts on Android and iOS. 9,400+ downloads, 18 likes, 140 pub points. [pub.dev](#) · [GitHub](#)
- **nepali_calendar_plus** (Flutter package): Bikram Sambat calendar with date picker, date conversion and localization for Android, iOS, web and desktop. 9 likes, 160 pub points. [pub.dev](#) · [GitHub](#)
- **extension_service** (Dart/Flutter package): reusable extension methods for common Dart and Flutter types across all six Flutter platforms. 11 likes, 130 pub points. [pub.dev](#) · [GitHub](#)
- **nepali_address_plus** (Dart package): zero-dependency lookup for Nepal administrative divisions (province, district, local level, ward), verified against official MoFAGA data. 150 pub points. [pub.dev](#) · [GitHub](#)

TECHNICAL WRITING

Flutter and Dart articles on Medium ([medium.com/@saw2110](#)), including Flutter Apps with Server-Driven UI, Managing Conflicting Imports in Dart, Flutter's Keys, addPostFrameCallback, and Managing Keyboard Visibility in Flutter.

EDUCATION

Bachelor in Information Management (BIM) — Tribhuvan University

2017 – 2023

Higher Secondary (Management, Computer Science) — NEB

2015 – 2017
